

ABOUT KIND AND CARE HEALTH SERVICES

Kind & Care has Pan-India Network of Nursing service and Advanced Medical equipment's facilities. We have Team of professionals to offer high-end home health services including Doctor Home Consultations, Nursing/Attendant Home care Services, and Medical Equipment, Lab and Diagnostics equipment's and Services etc. to patients and hospitals.

We are able to provide you accurate equipment's like Ventilators, Oxygen Control Panel(Fully & Semi), Surgical Lights, Surgical Beds and Normal beds for hospital and nursing homes, Lab equipment's, Bed Head Panel, Digital Gas Alarms and other Necessary Equipment's as well., hospital-like treatment at the comfort of your home for your loved ones.

WHO we are...

We are Nilakshi Kind and Care Health Services, having more than 7 years of Experience in Healthcare Segment including nursing Services at home and trading of Medical Equipment's.

OUR mission ...

We aim to Lead the trading and service unit in the market by ensuring best quality and services in minimum time period. It is our mission to deliver the best enhanced efficient patient care with best quality products around the world and most in the remote control regions of India.

WHAT we do ...

We have well educated staff for nursing and well established reputed manufacturing Units to deliver Medical Equipment's in short time. We are having technical teams for verify the product and install it as per customer needs.

QUALITY policies.

We, primarily aim to continuously improve our performance in the medical industry by exporting products of international quality specifications, by ensuring prompt deliveries & higher level of customer satisfaction through teamwork & dedication

Modular Operation Theatre

Modular OT is a finished steel structure with jointless sterile coating providing a high quality finish. Pre-fabricated modular OT offers the advantage of speedy construction, high quality finish in prevention of contamination build up, long durability, robust and flexibility design for future expansion, ease of maintenance etc.

(Hospital Laminar Flow)

(Hospital Manual Sliding Door)

(Operation Theater Control Panel)

(Hospital Air Handling Unit)

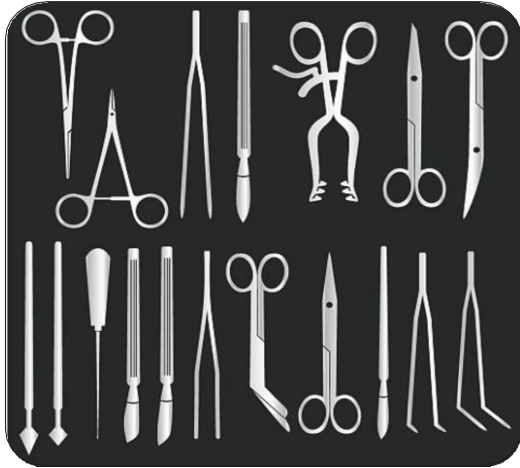

(Hospital Automatic Sliding Door)

(Automatic Scrub Sink)

Features

- F Non-porous, Seamless, easily cleanable surfaces to prevent the build up of contaminants.
- F Concealed Wiring and Medical pipeline system.
- F Laminar Air flow maintains **High Purity** environment inside Operation Theatre.
- F Clean air quality and effective ventilation in the OT.
- F Effective lighting by maintaining LUX levels through OT Light and peripheral lights in the OT.

(Surgical Equipment's)

(Pressure Relief Damper)

(X-Ray Viewing Screen)

(Automatic Hatch Box)

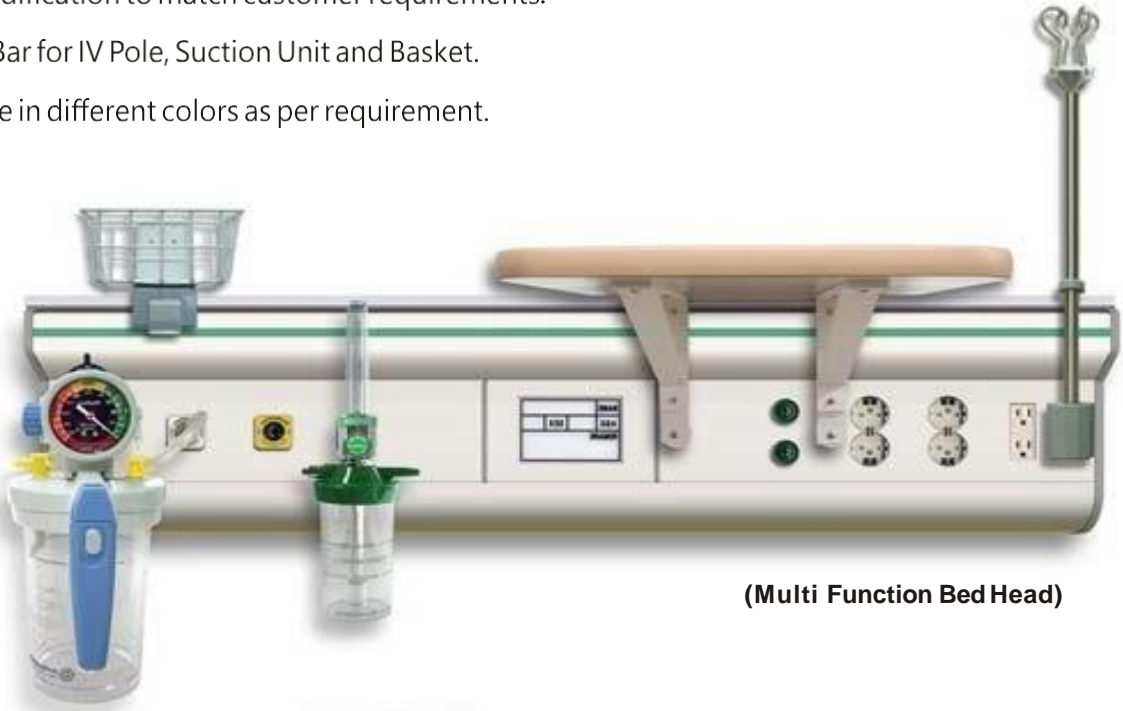

(Docking Card)

Bed Head Panel

Sleek design made of Aluminum Powder coated material with provisions for Gas Terminal Units and sockets for power and monitor.

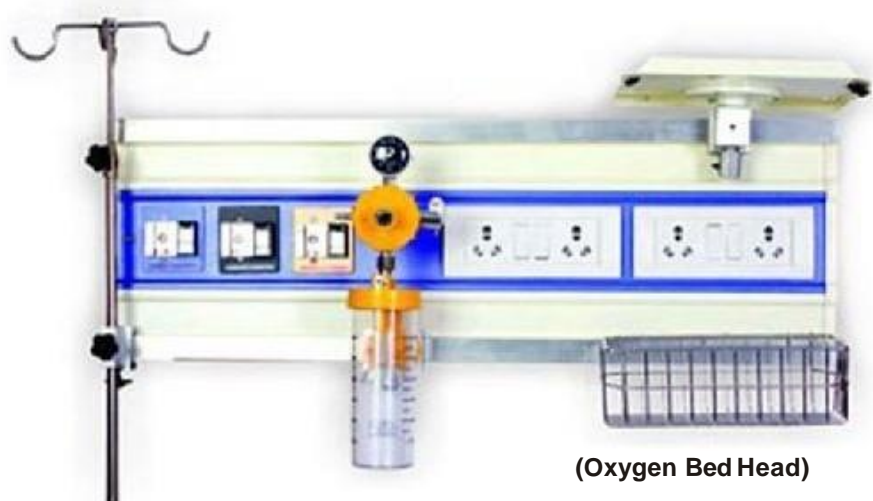

- F Very easy to assemble and configure.
- F Easy modification to match customer requirements.
- F Sliding Bar for IV Pole, Suction Unit and Basket.
- F Available in different colors as per requirement.

(Multi Function Bed Head)

(Switch Bed Head)

(Oxygen Bed Head)

Pendant

It is capable of providing additional gas and electrical outlets to meet end user's highly demanding requirements

- F Single Arm Pendant with a long vertical console
- F Serves as both fluid and equipment management pendant
- F Contains rails and shelves to eliminate the use of trolleys
- F The slim design gives wider working space
- F Easy access to all services during maintenance and troubleshooting

(Single Ceiling Pendant)

(Multi Ceiling Pendant)

(Wall Pendant)

Control Panel

(Fully Automatic Analog Control Panel)

The entire range of Medical Gas Control Panels is widely appreciated for its efficient functioning and user-friendly interface. In our range, we offer Automatic Medical Gas Control Panels and Semi Automatic Medical Gas Control Panels.

- F Inlet and outlet pressure display gauges in psi/kPa
- F Manual shut-off valve
- F High flow capacity regulator
- F Wall mount with adjustable brackets for different wall thicknesses
- F Low maintenance

(Fully Automatic Oxygen Control Panel)

(Semi Automatic Control Panel)

(Hospital Oxygen Gas System)

(Oxygen cylinders)

Area Alarming System

Medical Gas Analog / Digital Alarm Systems **come in 1, 2, 3, 4, 5, and 6 gas categories** where the number indicates the number of gases the system can handle. The system contains Analog or Digital meters for displaying pressure of the different gases coming from the pipe lines. The system generates appropriate alarm in case of High pressure or Low Pressure in any gas.

- F Perfect finish
- F Quality tested
- F Hassle free operation
- F Optimum performance

(Multi Functional Digital Gas Alarm System)

(Multi Functional Analog Gas Alarm System)

(Single Digital Gas Alarm System)

(Single Analog Gas Alarm System)

Zonal Valve Box & Manifold

We offer Zonal Valve Box, manufactured by using superior quality of material and designed in international standard. The Zonal Valve Box are fully designed to suit multiple operational requirement in case of emergency and ensure considering space for mounting.

(Oxygen Zonal Box & Manifold)

(Digital Zonal Valve Box)

(Zonal Valve Box)

(Multi Functional Zonal Valve Box)

Medical Gas Outlet

Outlets are points at which connections can be made to the medical gas piping system to supply gases under pressure. Our quality controllers check these products under rigorous quality checks before being introduced in the market. Keeping in mind changing requirements of the clients, we manufacture and supply a wide array of **Gas Outlet Point**. Besides this, our products are available at market leading prices.

(Amico Type Gas Outlet Point)

(British Standard Type Gas Outlet Point)

(Shrader Type Gas Outlet Point)

(Parkodex Type Gas Outlet Point)

(DIN Type Gas Outlet Point)

Accessories

(BPC Flow meter with Humidifier Bottle)

(2000 ml) (1000 ml) (600 ml)

(Ward Vacuum Jar)

(Double Stand Theatre Suction Trolley)

(Single stand Theatre Suction Trolley)

(Shradder Type Gas Outlet Point)

(Vacuum Regulator)

(Vacuum Regulator with Filter)

(FA Valve with Humidifier Bottle)

Cylinders & Accessories

(Oxygen & Nitrous Cylinder)

(Cylinder Trolley)

(3in1 Spanner)

(Gas Manifold)

(Pressure Gauges)

(Double Stage Double Gauge Regulator)

(Double Meter MOX Regulator)

(IOX - 14 Regulator)

Copper Pipes & Vales

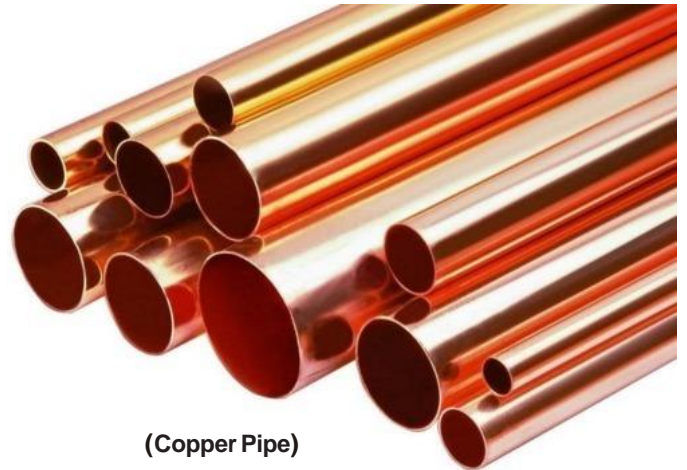

These are specially constructed to suit the variegated demands of the medical sector. Moreover, these copper tubes are offered in varying lengths and dimensions to suit the requirements of our valued dients. Uninterrupted Medical Gas supply is a necessity in hospitals (ICCU, Operation Theater, Wards, Nursery) etc. Pipes facilitate this in most effective manner.

These copper tubes shall be manufactured from phosphorus deoxidized non-arsenical Copper to grade CW 024A (Cu-DHP) conforming to BS EN:13348/ASTM: B 819 in Half Temper Condition. Copper Tubes Shall be Degreased & Suitable for Oxygen use with both ends Capped and protectively packed.

These copper pipes, copper fittings, isolation valves and PVC saddles are available in 12mm, 15mm, 22mm, 28mm, 35mm, 42mm, 54mm and 76mm.

(Brass-Ball Valves)

(Copper Pipe)

(Copper Pipe Fitting)

(Excitation with Nipples)

(Fitting Excitation)

(SS-Ball Valves)

Bed Head Accessories

(Vacuum Unit Slider)

(Monitor Stand Multi-movement)

(Monitor Stand)

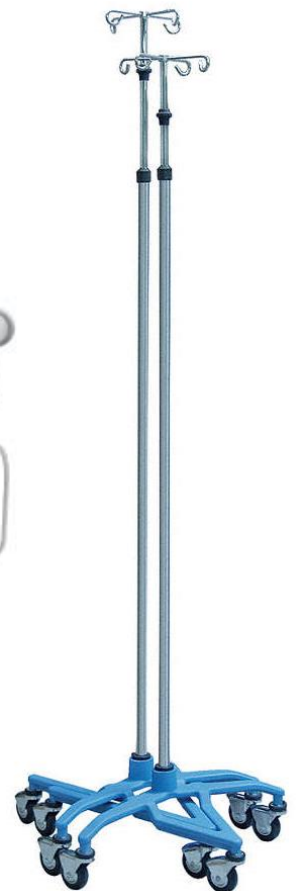

(Monitor Stand Multi-movement)

(Basket)

(Flexible Tail Pipe)
